Simple action you can take: Mail a postcard!

Help us tell the Minister we don't need or want a highway, you can **download the postcard PDF file from www.stophighway.com**. Fill in your name and return address and mail it. If you prefer, the Minister's electronic contact information is also provided on the card.

Despite the pre-election promise not to build the Niagara to GTA highway, the Ministry of Transportation (MTO) has moved forward with plans full speed ahead. **The MTO will present Transport Minister Chiarelli with the preferred route this fall.** To see a map with the current routes, see www.stophighway.com. Each gray shaded area is a possible route.

The SEHC put together a video highlighting the beauty of the Niagara Escarpment and why it's important to save it – not pave it. Take a look at the video on You Tube: <http://youtu.be/HVNyzzFOYRU>

Pass the link along, tweet about it, and better still, COMMENT at the bottom of the You Tube page.
